For RESEARCH PROPOSAL **xxx**

3.3 The obligations of this Section shall survive this Agreement for a period of fifteen (15) years after the Effective Date.

4. INTELLECTUAL PROPERTY [version for multi-sponsor agreements]

4.1 Study Sponsors Confidential Information is the sole property of the applicable Study Sponsor or its Affiliates. Institution agrees that any Study Sponsor Derivative Data shall be owned by the respective Study Sponsor(s) from whose Clinical Study data it is derived and shall and hereby does assign all rights and title to such Study Sponsor Derivative Data to such Study Sponsor(s). Nothing in this Agreement shall be construed as granting or conferring, expressly or impliedly, any rights by license or otherwise, under any patent, copyright, or other intellectual property rights owned or controlled by Study Sponsors' or its Affiliates', including but not limited to patent and other intellectual property rights relating to each Study Sponsor's its Affiliates' compound(s), data in Clinical Studies or Study Sponsor Derivative Data, except as specifically set forth in this Agreement.

4.2 All New Intellectual Property will be the sole property of Institution; however, Institution will promptly notify each Study Sponsor in writing of any New Intellectual Property or Study Sponsor Derivative Data and, without prejudice to the foregoing obligation, also upon a written request for such information made by a Sponsor. Institution hereby grants to each Study Sponsor and its Affiliates a perpetual, non-exclusive, fully-paid up, royalty-free, irrevocable, worldwide, unrestricted license to use and exploit any New Intellectual Property for any purposes, with the right to sublicense including through multiple tiers. For the avoidance of doubt, such purposes include, but are not limited to, making, having made, using, and selling any diagnostic or clinical decision support test applicable to a disease treated by a Study Sponsor's or its Affiliates' compound(s) or other compounds in the class. Institution shall provide each Study Sponsor with (i) its respective Study Sponsor Derivative Data, and (ii) any software (in source code form) and models (including the model parameters) comprised in New Intellectual Property, in each case (i) and (ii) ensuring (a) there are no technical protection measures to prevent their use by the Study Sponsors and (b) the removal of any of the other Study Sponsor Confidential Information except and to the extent permission for such inclusion has been granted. If additional assistance from the Institution is requested beyond the rights provided by the non-exclusive license, Institution will promptly provide reasonable assistance to each Study Sponsor, upon commercially reasonable terms that are at least as favorable to the Study Sponsor as the terms agreed with any other licensee for such assistance, to facilitate the Study Sponsor in fully utilizing any New Intellectual Property.

4.3 Institution further grants a co-exclusive, always even as to Institution, option to each Study Sponsor, exercisable within twelve (12) months from notice of any New Intellectual Property, to negotiate in good faith a co-exclusive (even as to Institution), fee-bearing, worldwide license, with the right to sublicense through multiple tiers, to any New Intellectual Property that Institution may have or obtain. In order to negotiate the co-exclusive license in accordance with the Confidentiality Terms of Section 3 above, Institution shall only share a summary of the New Intellectual Property. However, if Institution needs to provide any other Study Sponsor Confidential Information within the summary of the New Intellectual Property, Institution shall request the written authorization of the concerned Study Sponsor(s), which shall not be unreasonably withheld. have made, use, sell or otherwise dispose of the subject matter of the New Intellectual Property or products incorporating the subject matter of the New Intellectual Property subject to any non-exclusive licenses granted in section 4.2. For the sake of clarity, “co-exclusive” rights shall not provide exclusivity of one Study Sponsor against the other(s), but shall preclude Institution from granting licenses to third parties. In the event that none of the Study Sponsors exercises the option to negotiate an exclusive or co-exclusive license, or in the event Institution and Study Sponsor(s) fail to agree to commercially reasonable exclusive license terms following good faith negotiation, Institution may negotiate further non-exclusive license terms with third parties. Any such terms shall be consistent with the non-exclusive license granted to Study Sponsors in Section 4.2 above. Should any terms be agreed with a third party in accordance with this section, then for five (5) years after the Effective Date, Institution will notify each Study Sponsor, within thirty (30) days of the effective date of any such agreement, of the identity of the third party.

4.2 All New Intellectual Property will be the sole property of Institution; however, Institution will promptly notify the Study Sponsor in writing of any New Intellectual Property or Study Sponsor Derivative Data and, without prejudice to the foregoing obligation, also upon a written request for such information made by Sponsor. Institution hereby grants to the Study Sponsor and its Affiliates a perpetual, non-exclusive, fully-paid up, royalty-free, irrevocable, worldwide, unrestricted license to use and exploit any New Intellectual Property for any purposes with the right to sublicense including through multiple tiers. For the avoidance of doubt, such purposes include, but are not limited to, making, having made, using, and selling any diagnostic or clinical decision support tests applicable to a disease treated by the Study Sponsor’s compound(s) or other compounds in the class. Institution shall provide each Study Sponsor with (i) its respective Study Sponsor Derivative Data, and (ii) any software (in source code form) and models (including the model parameters) comprised in New Intellectual Property, in each case (i) and (ii) ensuring (a) there are no technical protection measures to prevent their use by the Study Sponsors and (b) the removal of any of the other Study Sponsor Confidential Information except and to the extent permission for such inclusion has been granted. If the Study Sponsor or its Affiliates exercises its option to negotiate an exclusive license, the Study Sponsor or its Affiliates and Institution will exclusively negotiate in good faith, for up to one hundred eighty (180) days or such mutually agreeable longer period, regarding commercially reasonable terms for an exclusive, worldwide, fee-bearing license, including the right to sublicense through multiple tiers, for the Study Sponsor and its Affiliates to make, have made, use, sell or otherwise dispose of the subject matter of the New Intellectual Property or products incorporating the subject matter of the New Intellectual Property. In the event that the Study Sponsor does not exercise its option to negotiate an exclusive license, or in the event Institution and the Study Sponsor or its Affiliates fail to agree to commercially reasonable exclusive license terms following good faith negotiation, Institution may negotiate further non-exclusive license terms with third parties. Any such terms shall be consistent with the non-exclusive license granted to the Study Sponsor and its Affiliates in Section 4.2. Should any terms be agreed with a third party in accordance with this section, then for five (5) years after the Effective Date, Institution will notify Study Sponsor of the identity of the third party, within thirty (30) days of the effective date of any such agreement.

4.4 Institution agrees to obtain written agreements with all Researchers assigning all rights, title and interests in New Intellectual Property and Study Sponsor Derivative Data to Institution.

8.2 Institution shall be responsible for the compliance of the Lead Researcher and any other Researcher to the terms of this Agreement.

8.3 Lead Researcher will obtain any regulatory or ethics approvals necessary to conduct the Research Proposal.

9. DATA PROTECTION

Furthermore, Institution shall ensure that no attempt is made to identify subjects, and will not use or combine Study Sponsor Confidential Information with other sources of data that might lead to the identification of any individual.

10. TERM AND TERMINATION

DATA SHARING AGREEMENT

For RESEARCH PROPOSAL **xxx**

10.1 The term of this Agreement shall commence on the Effective Date and continue through completion of the Research Proposal. Certain provisions of this Agreement survive termination of this Agreement as expressly set forth herein.

10.2 Institution's or any Researcher's use of any of Study Sponsor Confidential Information or intellectual property in violation of any law or of any terms or limitations imposed by this Agreement shall be a violation of this Agreement and Study Sponsors may immediately terminate the rights granted under this Agreement unless earlier terminated as set forth in 10.3 below.

10.3 Study Sponsor(s) may, in addition to any other rights and remedies available to Study Sponsor(s), terminate this Agreement by giving Institution written notice of such termination in the event Institution or any Researcher materially breaches any of the terms and conditions of this Agreement and fails to cure such breach or default as promptly as practicable and, in any event, not more than thirty (30) days after respective Study Sponsor(s) gives Institution written notice specifying the details thereof. Notwithstanding the foregoing, in the event that any breach is not reasonably capable of cure within the thirty (30) day period, it shall be sufficient if Institution promptly commence appropriate action to cure and diligently pursues such action until complete.

11. GOVERNING LAW; VENUE

This Agreement shall be interpreted and governed exclusively by the laws of the country and, as applicable, the government subdivision, in which the Study Sponsor is located (as set forth at the beginning of this Agreement), without reference to its rules of conflict of law. - (b) verifying the integrity of confidential data provided by Study Sponsor(s), examining the systems that process, store, support, and transmit such data, and confirming the security of confidential data processed by Researcher.

The findings of the audit can be used by Study Sponsors to terminate the Agreement, to inform the relevant Authorities and to engage liability of the Institution in case of breach of the sections (2), three (3) and/or five (5) and any applicable privacy data protection requirements or laws and regulations.

The Study Sponsors will coordinate their audit activities to avoid multiple audits. Study Sponsors reserve the right to perform one common audit per year at the maximum unless there is probable cause of non-compliance with the provisions mentioned in the section above (a,b,) or an urgent need to perform an audit (e.g. urgency to comply with data security and regulatory obligation to inform authorities). Study Sponsors agree that the purpose of the audit right is not for one Study Sponsor to get access to the anonymized data to the other Study Sponsors and the confidentiality obligation will be applicable in case of performance of an audit. The costs for the audit are borne by the Study Sponsor. If the findings of the audit lead to remediation or termination of the Agreement, the costs shall be reimbursed by the Institution.
